

## Stay With Me

Nemesea

Don't you understand?  
Didn't you just listen to me?  
I will never find  
All that I came here for  
It's time to understand  
It's time to recognize the pitfall  
Need to change my ways  
Directions I'm going in

Breathe with me  
Come fill me, hold me, take my hand and stay with me  
Honestly  
I cannot carry on if you won't stay with me, no

I sacrificed it all  
Even all my great potential  
Pushed through every door  
I've lost all my will to try  
Now I understand  
I will never never make it  
If I don't believe  
This dream will come true for me

Breathe with me  
Come fill me, hold me, take my hand and stay with me  
Honestly  
I cannot carry on if you won't stay with me, no

These boundaries we will overcome  
All this time we fought so hard and now  
We'll make it and I won't let go  
So I just need you to

Breathe with me  
Come fill me, hold me, take my hand and stay with me

Agony  
Won't fill me, hold me, take my hand and stay with me  
Honestly  
I cannot carry on if you won't stay with me
