

# Let Me Be Your Pirate

Nena

It's time to take you with me  
On all the seven seas  
We'll sail until the edge of time  
The moon will keep us company

It's time to make the flight now  
The skies are clear for take off  
This longing has me calling your name  
All our money's just to play this game

For you I'd do those crazy things and I'd  
Lay the world down at your feet and I'd  
Catch the falling stars from heaven, all this  
Only to kiss you just one time

It's time to take you with me  
Down all the endless highways  
We'll run until the edge of time  
The moon will keep us company
