

# Out of the Black

Neneh Cherry

I'm skippin' down the street  
Just tryna to mind my business  
I've got my blinkers on,  
So don't stop I can win this  
I see the wolf packs come,  
But ganin' on the corners  
Hidin' their cut backs while attend into the mourners  
Got eyes,  
Behind our back  
Wash your mouth  
Face the pack!  
Out of the black  
Out of the blue  
I just want you to want it too!

I mean it, I'm complete,  
And all my kids are happy -  
I feel what's gone before  
Will come right back and slap me!

I'm robyn on the microphone and into speakers  
You know I'm not sick like that,  
But I've got a fever!  
On out toes  
To the black  
From the red  
We'll be back!  
Out of the black  
Out of the blue  
I just want you to want it too!  
These are the facts  
And here is the news  
We just want you  
To want it too! oh!

Spread my wings and  
Take small river sips deepsin' planet  
Spread my wings planet below life  
?  
On out toes  
To the black  
From the red  
We'll be back!  
Out of the black  
Out of the blue  
I just want you to want it too!  
These are the facts  
And here is the news  
We just want you  
To want it too! oh!  
We just want you to want it too!  
I want you  
I want too  
I want you  
To want it too  
I want you want it too!
