

Out of the Black

Neneh Cherry

I'm skippin' down the street
Just tryna to mind my business
I've got my blinkers on,
So don't stop I can win this
I see the wolf packs come,
But ganin' on the corners
Hidin' their cut backs while attend into the mourners
Got eyes,
Behind our back
Wash your mouth
Face the pack!
Out of the black
Out of the blue
I just want you to want it too!

I mean it, I'm complete,
And all my kids are happy -
I feel what's gone before
Will come right back and slap me!

I'm robyn on the microphone and into speakers
You know I'm not sick like that,
But I've got a fever!
On out toes
To the black
From the red
We'll be back!
Out of the black
Out of the blue
I just want you to want it too!
These are the facts
And here is the news
We just want you
To want it too! oh!

Spread my wings and
Take small river sips deepsin' planet
Spread my wings planet below life
?
On out toes
To the black
From the red
We'll be back!
Out of the black
Out of the blue
I just want you to want it too!
These are the facts
And here is the news
We just want you
To want it too! oh!
We just want you to want it too!
I want you
I want too
I want you
To want it too
I want you want it too!
