

Weightless

Neneh Cherry

This mind is weak, my pulse is strong
Pushin' weights, I must be doing it wrong
Within pain, I can't keep up any long
But they won't get me another, no

Movin' in circles but I'm wasting away
Chasin' my tag still past the late

So I'm pullin' at the first string,
Spending money like it's going out of fashion
Keep on dancing but I can't find my right moves
Still I'm weightless
Busy shrugging off the first thing
Drippin' honey like a fool without a passion
Keep on dancing but I don't fit the right shoes
Am I weightless?

Uh! Out of my seat

Mind is weak, my heart is strong
Take with their car before it takes too long
See my voice on a liquid phone
Service myself when I'm all alone

Give a room a personal clue yea
And I hope you got to where the grass is greener

So I'm pullin' at the first string,
Spending money like it's going out of fashion
Keep on dancing but I can't find my right moves
Still I'm weightless
Busy shrugging off the first thing
Drippin' honey like a fool without a passion
Keep on dancing but I don't fit the right shoes
Am I weightless?

Hold your breath, watch your step
Watch your step, hold your breath
'Cause it ain't over
Til the fat lady sings

Hold your breath, watch your step
Watch your step, hold your breath
'Cause it ain't over
Til the fat lady sings

Baby, come on
Come on come on come on
Baby, oh
Come on
Weightless
Still I'm weightless
Oh yes baby
Still I'm weightless
