

# Black Sunshine

Neon Hitch

(County police today warned school officials that drug use has gone up among teenagers.

The police say they are looking at the possibility of an overdose  
The United States was first hit by a heroin epidemic in the '60's  
He was found dead today in an apartment here in New York city, he was just 28 years old)

Might as well give it a try  
I get excited when I see the light  
Looking for a reason why  
I should know

I know, I know, you don't all agree  
And now you're disappointed in me  
But I'm a rebellion  
I wanna be free, so

And they call him Black Sunshine  
I will be gone for a while  
'Cause I went and got myself  
A new best friend

Until the end, I love until the end  
End, end  
I love until the end  
End, end

My black sunshine

Until death do us part  
Got a bad cracked light  
I can't see far  
The gravel leaves me scarred  
But this love got me hurt

I know, I know you don't all agree  
And now you're disappointed in me  
But I'm a rebellion  
I just wanna be free, so

And they call him Black Sunshine  
I will be gone for a while  
'Cause I went and got myself  
A new best friend

A love until the end, I love until the end  
End, end  
I love until the end  
End, end

My black sunshine  
My black sunshine  
My black sunshine  
My black sunshine
