

I walk around with a tablecloth in my hair,
They call me Marilyn in the caravan,
gunshots waking me up, if I got a teacup
it's filled with Jameson,
don't need a million groupies in my pocket to get by

This is for my people, all the gypsy stars
They call us illegal, that's just who we are,
This is for my people, all the gypsy stars
They call us illegal, that's just who we are,
we are

We don't need your money, it's no good around here,
cause we get in for free, we get in for free, we get in for free
we get in for free.

All my gypsy stars x8

I walk around with a tablecloth in my hair
We are the infamous, I know you heard of us
No I don't do no rich crap but you know the bitch bad
See us rolling up on the gypsy bus,
no roof cause we hold our flags up high

This is for my people, all the gypsy stars
They call us illegal, that's just who we are,
This is for my people, all the gypsy stars
They call us illegal, that's just who we are,
we are

We don't need your money, it's no good around here,
cause we get in for free, we get in for free, we get in for free
we get in for free.

All my gypsy stars x8
Stars

I don't need your money, it's no good around me
Cause you know a drink taste better if you get it for free, hahaha!

We don't need your money, it's no good around here,
cause we get in for free, we get in for free, we get in for free
we get in for free.
We don't need your money, it's no good around here,
cause we get in for free, we get in for free, we get in for free
we get in for free.
