

Midnight Sun

Neon Hitch

It's always one night, One night, With you
Room three oh one in my dressing gown
Bottle of red wine, Red wine, For two
When the sun comes up and I come down

He wanna fuck me like a rockstar
The beato said all you need is love
I feel empty as this mini bar
And in the morning I'm hungover you

You never say that you love
You always turn over when we are done
Why wont you say that you love me
Two bodies under the midnight sun

I left my diamond gold ring on the table
But you saw right through me and said I don't
That's when I asked and you told me, no labels
So why do I come back, when I promise I wont.

He wanna fuck me like a rockstar
The beato said all you need is love
I feel empty as this mini bar
And in the morning I'm hungover you

You never say that you love
You always turn over when we are done
Why wont you say that you love me
Two bodies under the midnight sun
