

Bad Man

Neon Jungle

Yeah, I got body for this
Yeah, see ya looking this way

Anything I wanna got
And when I step into the spot
You got my girls, you make it hot
And when we move, you wanna watch like

Yeah, we're just doing our thing

Out here on the street lights, after midnight
You know we'll be waiting
Shades on with my whole crew when we roll through
What street dreams are made of

Out here on the street lights, after midnight
You know we'll be waiting
Shades on with my whole crew when we roll through

Walk like a bad man

Walk like a bad man
Walk like a bad man

Yeah, when we up in the club
Yeah, everyone show us love

We don't pay or wait in line
It's on the house, I'm on your mind
Tell the feds to let me ride
Singing, "Bitch, don't kill my vibe."

Yeah, we'll be turning it up

Out here on the street lights, after midnight
You know we'll be waiting
Shades on with my whole crew when we roll through
What street dreams are made of

Out here on the street lights, after midnight
You know we'll be waiting
Shades on with my whole crew when we roll through

Walk like a bad man

Walk like a bad man
Walk like a bad man

I know that I can, that's why I walk like a bad man

That's how we do, ready, I'm not coming for you

I know that I can, that's why I walk like a bad man

That's how we do, ready, I'm not coming for you

Out here on the street lights, after midnight

You know we'll be waiting
Shades on with my whole crew when we roll through

Walk like a bad man
