

Fool Me

Neon Jungle

Going slow on the road to nowhere
They've fallen as fast as they can
Those hearts hold on to anything,
When there's holes in the palm of your hand
So walk past, turn back time
Just hoping I can see

I don't wanna learn my lesson
So I keep on making the same mistakes
I don't wanna learn my lesson
So if you fool me, fool me again

Thrown paint over all the mirrors
So there's nothing to show us that
It's gonna break, it's gonna hurt, don't wanna know
That we've fallen until we crashed
Don't need reminding that we've been here before

I don't wanna learn my lesson
So I keep on making the same mistakes
I don't wanna learn my lesson
So if you fool me, fool me again

Fool me, fool me again

All these bones are tougher than skin
And that's been one rule now I'm ready for it
Can break a thousand pieces down

I don't wanna learn my lesson
So I keep on making the same mistakes
I don't wanna learn my lesson
So if you fool me, fool me again
Fool me, fool me again

I don't wanna learn my lesson
So I keep on making the same mistakes
I don't wanna learn my lesson
So if you fool me, fool me again
Fool me, fool me again
