

So Alive

Neon Jungle

We do it better, we do it better
And you know that's why you like it, like it
We do it better, we do it better
And you know that's why you like it

Don't let us fooled you
Remember we told you, we're just a bit twisted, deranged
Always be like this, surrounded by misfits
I guess we were born on the freight
Look how we kill all the princess
This castle is ours
And we're gonna rain
Look how we kill all the princess
This castle is ours
And we're here to stay

Play all night, we're not afraid
We are, we are, we are
So alive, so alive
We burn so bright, we're up in flames
We are, we are, we are
So alive, so alive

Four in the morning
The sun's coming up
But you know they ain't shutting us down
Don't try and stop us
Got magic, got gold
Thus, You'd only be wasting your time
Look how we running this kingdom
This castle is ours
And we're gonna rain
Look how we running this kingdom
This castle is ours
And we're here to stay

Play all night, we're not afraid
We are, we are, we are
So alive, so alive
We burn so bright, we're up in flames
We are, we are, we are
So alive, so alive

We do it better, we do it better
And you know that's why you like it, like it
We do it better, we do it better
And you know that's why you like it, like it
We do it better, we do it better
And you know that's why you like it, like it
We do it better, we do it better
And you know that's why you like it

Play all night, we're not afraid
We are, we are, we are
So alive, so alive
We burn so bright, we're up in flames
We are, we are, we are

So alive, so alive
