

# I Am the D.J.

Neon Trees

Every part of my memory  
Lives inside a night when you were mine  
Round and round  
The feeling is beating now  
Still running down, Still running down  
It's playing all the time  
Your song remains the same  
Spinning on the airwaves

I am the DJ  
And you are the record that I play  
And when I scratch the surface  
Does it still make you nervous?  
I am the DJ  
And you're still my favorite mistake  
So when you get that feeling  
Keep dancing, Keep dancing  
'Cause I am the DJ  
I am the DJ

Every beautiful melody  
Is tuned to say "I miss you when you're gone"  
Sing to me, sing to me sweetly  
Before the music dies and we're left with fragments of a song  
Your song remains the same  
Still spinning on the airwaves

I am the DJ  
And you are the record that I play  
And when I scratch the surface  
Does it still make you nervous?  
I am the DJ  
And you're still my favorite mistake  
So when you get that feeling  
Keep dancing, Keep dancing

Never mind I hear you all the time  
Lovely and amazing and completely underwhelmed  
Tell me why you switched to satellite  
The records in your hands  
Please play my song again

Every part of my memory  
Lives inside the night

I am the DJ  
And you are the record that I play  
And when I scratch the surface  
Does it still make you nervous?  
I am the DJ  
And you're still my favorite mistake  
So when you get that feeling  
Keep dancing, Keep dancing  
Cause I am the DJ  
(I am the DJ)  
I am the DJ

(I am the DJ)  
I am the DJ  
(I am the DJ)  
I am the DJ
