

The scar is burning and I'm in pain
The long lasting memory I have keeping me on full alert
Bringing water to the boil in cold blood
Wide awake intoxicated mind

How do I neutralize the stains of blood
How do I neutralize the sick of soul the sick mind
How do I neutralize the mud in my eyes
How do I neutralize the the pain the scar...???

A snake is creeping up to get back at you
A wolf is near out for your blood
The king of birds is swooping
To settle old scores
Absolutely no remorse...

The burning scar a man in pain memory hate...
