

Closer

Nerina Pallot

I got my eye on you,
I'll let you kiss the room
While you lick your lips in anticipation -
You watch bite my tongue,
Keep me hanging oooo-on
That's a you roll in my imagination
Ye-ye-yeah
I want you to move closer
A little closer, are you getting me!
I need you to move closer
A little closer,
Boy just give it to me straight
Give it to me good
Give it to me straight up, now
You should now - straight
Give it to me good,
You give it to me straight up, now

Oh, this could take all night
But you know it's alright now
Best to delete the?
Oh oh oh oh
I want you to move closer
A little closer, are you getting me!
I need you to move closer
A little closer,
Boy just give it to me straight
Give it to me good
Give it to me straight up, now
You should now - straight
Give it to me good,
You give it to me straight up, now
Oh ooh oh

I want you to move closer, closer
I want you to move closer, yeah!
I want you to move closer, closer
I want you to move closer, yeah!

I want you to move closer
A little closer, are you getting me!
I need you to move closer
A little closer,
Boy just give it to me straight,
Give it to me good
Give it to me straight up, now
You should now - straight
Give it to me good,
You give it to me straight up, now
Oh ooh oh

I want you to move closer, closer
I want you to move closer, closer
I want you to move closer, closer
I want you to move closer, closer
