

Love's Going To Lose My Head

Nerina Pallot

Got a bad case of nothing
Gotta find me something that I can't lose
'Cause when the day is long and the night is lonely
I think of you

Oh, someday we will dance under friendly skies
Cool breeze around us
I will hear you sigh
Is it so remiss that I feel like this?

Love's gonna lose my head tonight
I can't stop it, I can't stop it
You just hang on and we'll be alright
You got it, you got it

I don't know what tomorrow brings
I don't know much 'bout anything
Love's gonna lose my head tonight
I can't stop it, I can't stop it

I got a bad case of holding
Onto the past for reasons I don't know
And you've been feelin' low
Write it out, write it out, write it out and let it go

'Cause there's no fixing
All those things that wanna break
Sometimes it's fine to make mistakes
Is it so remiss that I feel like this?

Love's gonna lose my head tonight
I can't stop it, I can't stop it
You just hang on and we'll be alright
You got it, you got it

I don't know what tomorrow brings
I don't know much 'bout anything
Love's gonna lose my head tonight
I can't stop it, I can't stop it

Love's gonna lose, gonna lose my head
Talking in my sleep all alone in my head
The witching hour sends me like a ghost

Love's gonna lose my head tonight
Can't stop it, I can't stop
You just hang on and we'll be alright
You got it, you got it

I don't know what tomorrow brings
I don't know much 'bout anything
But love's gonna lose my head tonight
I can't stop it, can't stop it if I tried.
