

# Love's Going To Lose My Head

Nerina Pallot

Got a bad case of nothing  
Gotta find me something that I can't lose  
'Cause when the day is long and the night is lonely  
I think of you

Oh, someday we will dance under friendly skies  
Cool breeze around us  
I will hear you sigh  
Is it so remiss that I feel like this?

Love's gonna lose my head tonight  
I can't stop it, I can't stop it  
You just hang on and we'll be alright  
You got it, you got it

I don't know what tomorrow brings  
I don't know much 'bout anything  
Love's gonna lose my head tonight  
I can't stop it, I can't stop it

I got a bad case of holding  
Onto the past for reasons I don't know  
And you've been feelin' low  
Write it out, write it out, write it out and let it go

'Cause there's no fixing  
All those things that wanna break  
Sometimes it's fine to make mistakes  
Is it so remiss that I feel like this?

Love's gonna lose my head tonight  
I can't stop it, I can't stop it  
You just hang on and we'll be alright  
You got it, you got it

I don't know what tomorrow brings  
I don't know much 'bout anything  
Love's gonna lose my head tonight  
I can't stop it, I can't stop it

Love's gonna lose, gonna lose my head  
Talking in my sleep all alone in my head  
The witching hour sends me like a ghost

Love's gonna lose my head tonight  
Can't stop it, I can't stop  
You just hang on and we'll be alright  
You got it, you got it

I don't know what tomorrow brings  
I don't know much 'bout anything  
But love's gonna lose my head tonight  
I can't stop it, can't stop it if I tried.
