

Robbin' Hood Heroes

Nesian Mystik

[Verse:]

Rags to riches / Star to addict / Ya'll know how the story goes
/ Around every corner and playground / There's someone that who
could have had it all / But for one reason or another / Their
path went somewhere / Other than a world calling their name / From
A grade student / To Class A users / What's happening with our
kids today? / Poisoned by our own / Can't sleep anymore / Sister's
work on corners / Brothers keep on brawling' / So just tell me how
the story ends / The question is where did it all begin

[Chorus:]

Robin hood heroes / Just a page in a fairytale lifestyle of the
ghetto / They robin' hood heroes / Goes on and on, Goes on and
on

[Verse:]

They deal to the rich / Give to the poor / Only metres from my
door / Turning street legends to urban myth / From Rucker park
all the way to Grey Lynn / From what could of to never been / Be
the words in the song you sing / Not with trumpets instead with
violins / While you dance by yourself / So hooked / You can't
see you need help / So cooked / So its back to the bro you go
/ It hurts, cause you could have had it all

[Repeat Chorus]
