

# Squad Up

Netsky

Love dreams  
That's why I gotta queen  
On the side of my El Camino  
I hold the wheel and she roll the weed up  
Speed up! Now slow it down, I'm here  
Holding town hall meetings and bouncing like a round ball  
Beating hard wood surfaces  
My ankle-breaking cross over's perfect  
Defenders is feeling nervousness  
The game's dead, birth another one  
It's coming through; I see the head  
I've got another son

If you're in striking distance  
Kill the best, be the best  
Build a shrine outta respect - murder and eat the rest  
If I keep my head on straight, I keep my head on  
Since I keep my bird ok, she keep my bed warm  
Eyes forward, chin down, guard up  
You ma whore called God up, and tell 'em "Let's Squad Up"  
She wanna join me for brunch at the telly  
Where she get Jams spread across her buns like jelly

If it's hands, then we bang on em  
If it's cars then we swing on em  
This is Jams, I'm the new best  
Already undisputed and I ain't even due yet

If it's hands, then we bang on em  
If it's cars then we swing on em  
This is Jams, I'm the new best  
Already undisputed and I ain't even due yet
