

# Stripped

## Neurosis

Destroy the eyes of the world  
Wish for invisibility  
God damn your eyes I say from the gallows

Stripping you down

Ashamed for feeling  
Ashamed for thinking  
No right to my own real

Foundation, death in life  
Murder in the matrix

The hole in your soul marks the ruins  
The lost city  
The lost child

Anonymous persecutions  
Attracting autonomy from the flank

Bridges burned  
Internal shame spirals you down

Do not be ashamed of freedom
