

# A Clouded Mind

Neurotech

A clouded mind  
The only one  
Who can help  
To tear us apart

Same story again  
But today it's not unbearable  
To tell you the truth  
Just like you  
I am forgettable

Yes

A decision was made  
For the thoughts you will never know  
Still the question remains  
Do you still think of me ?

Yes

When clouded my mind becomes  
A clouded mind  
When I am the only one  
The only one  
With power to help someone  
Who can help  
When life tear us apart  
Tear us apart

Tear us apart

What about  
Same old song  
Are you there ?  
Are you there for me ?  
I am glad to know  
You are here  
You are here for me

Yes

When clouded my mind becomes  
A clouded mind  
When I am the only one  
Only one  
With power to help someone  
Who can help  
When life tear us apart  
Tear us apart

A clouded mind
