

No Turning Back

Neurotech

No turning back
Turn around from this vicious cycle
Turn around from the things you can't explain
Turn around from the fear inside you
What fear ?
Fear does not matter to me
If you want to be, anything better
Let me, save you from yourself
And from the chains, the chains that bind you
Descent from the cloud
The cloud
No turning back
It's all imaginary
For all those years to come, it was necessary
It's all imaginary
Don't try to find it
Turn around from the ghost that guides you
Turn around from the mask you cannot change
Look around, the past is behind you
What past ?
Past does not matter to me
If you want to be, anything better
Let me, save you from yourself
And from the pain, the pain that hunts you
Descent from the cloud
The cloud
No turning back
It's all imaginary
For all those years to come, it was necessary
It's all imaginary
Don't try to find it
This was only a test
I know
Yeah I know
I am not coming back for more
Cause this was only a test
No turning back
