

This Is the New Age

Neurotech

Waiting, searching
Holding unto life

Waiting, hoping
Time is on my side

It's inevitable
Not to care
When mind tells
You are to blame

For all the sickening
The reckoning
I feel the end is near

This is the new age
For us

Waiting, circling
Through the void of trust

Waiting, turning
From all the noise and dust

It was inevitable
And I don't care
It was just your mistake

The sickening
The reckoning
I see the air is clear

This is the new age
For us

After.. after...

After this day
The line of sight has reached
Beyond your way
Now you are safe
From me

This is the new age

For us
