

Unconditional

Neurotech

There's a message trapped inside my head
Wondering why i can't forget
All the good
All the bad
Words unsaid

Unconditional

There's a message coming out of my chest
Ten thousand memories I have to repress
All the good
All the bad
What's left unsaid ?

Unconditional

Love,
Was it same to you ?
Because right here, right now
I wait
Thinking together
But in the end we'll suffer forever

Suffer, forever
In unconditional love

We are one
And we know it
We are done
But we know it

When there is nowhere to go
When you are losing control
We are one
And we know it

When the message is told
There is nothing but cold
We are done
But we know it

We know it

Unconditional

Love,
Was it same to you ?
Because right here, right now
I wait
Thinking together
But in the end we'll suffer forever

Unconditional Love
