Neuroticfish

Keep a secret
Every time I'm near to you
I blur the surface
In hope of getting close to you

Can you handle?
Let me handle this for you
You are unable
To put yourself through

Are you careful
Of the things I say or do
See them clearer
'Cause I'm getting close to you

I penetrate you
There is nothing you can do
Protect your secrets
In fact I'm getting close to you

Getting closer
Closer to your point of view
Never expected
Of what you've been through

Can I handle?
Can I handle this for you?
I am unable
To get so close to you
