## Hospitality

Neuroticfish

I want hospitality I need hospitality I ask hospitality Something that you never gave to me Nailed to the ground; forced to be bound Nothing's perfect except the nightly sounds Taking my breath; taking all I have Rejecting; neglecting; living with my death I want hospitality I need hospitality I ask hospitality Something that you never gave to me Losing my will; expecting not to kill My pleasure; my treasure; something that I feel Never looking back; never try to crack My fantasies; my memories; my aphrodisiac I want hospitality I need hospitality

Something that you never gave to me

I ask hospitality
