

Pain

Neuroticfish

This is the end of the pain
I found my heart, I can't explain,
The feeling you merited in my heart.
This feeling could tear me apart.

Outside I am cold,
but inside im on fire.
Its you, I wanted to hold.
This is my only desire, 'cause this is
the end.
This is the-end.
This is the end.

Now your body is lying there,
Without a word to say.
There is no breath in the air,
I know you are far away.
The feelings of what I've done,
The words that I've been told
Are coming closer to my mind, and make
my head explode,
'cause this is the end.
This is the-end.
This is the end.

I realize what I have done,
I realize the pain has begun.
I realize this cold cold heart,
I realized I teared you apart.
The pain now grows bigger in me.
The pain now is killing me.
But there is no hope, no help to see...
I killed you and you killed me.
