

Somebody

Neuroticfish

I need to breathe,
But my lungs are filled with water.
Somebody give me my relief.
I need to speak,
But my heart seems to be broken.
Somebody help me to believe.

Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.
Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.

I need to eat,
But I won't give in to hunger.
Somebody help me to deceive.
I need to run,
But I don't know where I'm going.
Somebody find a way for me.

Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.
Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.

I need to live,
But I think I've lost the purpose.
Somebody tell me who to be.
I need relief,
From the pointless things I long to,
Nobody should rely on me.

Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.
Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.

Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.
Somebody, somebody help me.
I need to breathe, I need to speak,
Somebody help me.
