In the name of you  
I'll do all I have to  
In your name I'll go  
Where only and me will know  
In your name I won't listen  
In your name I will deny  
In your name I will resist them  
I do not ask you why

At night the monsters came  
And cut my head away  
All night I'm trapped in nightmares  
But no one cares

Don't cross my ways  
'Cause I am dying  
Don't utter the questions I gave  
I can't behave  
I don't feel safe here
