

# Blackest Heart

Neva Dinova

You think I haven't changed  
I admit I must look the same  
But I have been pushing my luck  
I'm in trouble...

You try to make up a line  
But you can't think of one  
But I have been jumping the gun  
I'm in trouble... divide

Something's under my skin  
Divide and conquer, there's something under my skin  
Blackest heart you've ever seen  
Blackest heart you've ever seen

If I go now, you'll need a machine to take me  
Blackest heart you've ever seen, it's a dream

It's a dream  
It's a dream  
It's a dream
