

Flowers

Never Heard of It

If I'm alive...
It's only because you took me by surprise
When I saw you with him
I never had the guts to ever realize
How hard can I try...

I bought you some flowers but they died on the way
I brought you dead flowers
Guess that they feel the same
So take these dead flowers
Keep these dead flowers
So you can forever think of me

I hope you die and when you die
I hope that it's slow and it's painful and lasts forever
For every breath that I don't take
And every coin thrown in the fountain
I'll wish you suffer
For the death you put me through

You killed me this one last time....

I bought you some flowers but they died on the way
I brought you dead flowers
Guess they feel the same
So take these dead flowers
Keep these dead flowers
So you can forever think of me

In exchange for these flowers
I'll take back the hours
I spent trying to feel that way
