

Where Am I?

Never Heard of It

Where am I
Pressured thoughts
Unanswered dreams
Foreign voices surround me

Look down on yourself is what they said
Well I know whoa,
Because I tries to get up off my feet whoa
And maybe you would see

If you can feel the way I feel
When I feel this way
Then you can sing along with me yeah, yeah, yeah
Come on and sing along with me whoa

Where am I
Stuck inside this empty dream
These dark clouds never seemed so mean
I'm lookin' at myself I'm here again

Yes I know whoa
But I still try to
Someday you will see whoa
And maybe you would see

If you can feel the way I feel when I feel like this
Its happiness that cannot come any other way
Yeah yeah yeah
Come on and sing along with me x3

Yeah yeah yeah.....
And maybe you would see
If you can feel the way I feel when I feel like this
Its happiness that cannot come any other way

Yeah yeah yeah yeah yeah
COME ON AND SING ALONG WITH ME! yeah
Come on and sing along with me x4
Sing along with me!
