

I like you.
Girl you don't got nothin' to prove to me
I know that times have been rough
For the both of us
But I'll pray for a change
You see this world has lots to offer
But in time it will go dark
And if this love is what we say it is
I'm sure we will go far
And with a girl as sweet as you
There's not much else I can do
But fall for you

You know that I'm a wreck
And you know I can't breathe
At the edge of my seat with each word
As the months turn into years
Just know that I will wait
Here
For you

Cause I've prayed for a change
You see this world has lots to offer
But in time it will go dark
And if this love is what we say it is
I'm sure we will go far
And with a girl as sweet as you
There's not much else I can do
But fall for you
For you (3x)

This world has lots to offer
But in time it will go dark
And if this love is what we say it is
I'm sure we will go far
And with a girl as sweet as you
There's not much else I can do
But fall for you
