

# I Love You More Than You Will Ever Know

Never Shout Never

Oh I know that I am here  
And you are there but we still have our love  
We move just like the moon and sun  
The sun comes up the moon rolls down  
A world apart but they dont make a sound  
They know their love spins us round

I've been to heaven I've been to hell  
I've been to vegas and god knows where  
But nothing feels like home like you babe  
I love you more than you will ever know

Oh ive got my car and my guitar  
A couple pills a couple scars  
But I made a wish on a lonesome star  
Star oh star you shine so bright  
Won't you grab me one small wish tonight  
That I wont die on this destructive path of mine

I've been to heaven I've been to hell  
I've been to vegas and god knows where  
But nothing feels like home like you babe  
I love you more than you will ever know

Than you will know  
Dear I love you more than you will ever know
