

Knock, Knock

Never Shout Never

If you call on me
I'll take the journey to bring my love, to you
If you need me to stay
I'll sink this ship and build our house out of it's bones

Until I saw your face I never knew a place I could call home
Spend some time
So alone

But now I got you, and you got me
"Knock, Knock"
Knocking at your door
If you love me back
I'll love you more
than you have ever known
And if you love me so
then I will go, anywhere for you

Until I saw your face I never knew a place I could call home
Spend some time
So alone
But now I got you, and you got me
"Knock, Knock"
Knocking at your door
