

My Friend Jane

Never Shout Never

You see this girl
She's got a problem telling time
If you knew her
You'd ask me so many questions
She's confused about her image
Although we all agree she's so beautiful

If you knew her
You'd ask me so many questions
I've never felt so good
Writing a song about you
I've never felt so good
To tell you we miss you so

Every song that I've wrote about you
And how we need you back
Yeah, it's kinda like that

I promise that you've never looked so good
Without that face on
I know, you know, you knew, you never could
I'd beg a differ if I had one

I promise that you've never looked so good
Without that face on
I know, you know, you knew, you never could
I'd beg a differ if I had one

I promise that you've never looked so good
Without that face on
I know, you know, you knew, you never could
I'd beg a differ if I had one
