

Over the Years

Never Shout Never

I'm sorry for the nights I let you down
Now all that's left to see is that I turned around
Back to the boy you fell in love with
Not this plague that brings you down
Remind your mom to call me I still care
Cause her approval meant the world
And I will not dare to disagree
With the life you arrange
Just remember only God knows if I've changed
I'll sing along to every song

I'll tag along for the ride
Cause in my head,
I'm right there tonight,
Through the good times
The bad ones too
I'm here for you
Cause in my dreams
You're the one who keeps me asleep
On the nights where I can care less
If I ever woke up again
