

Robot

Never Shout Never

I'm just a robot, I have no fears,
I lack emotion and I shed no tears.
I'm just a coma, a deadly sleep
My heart is breakin' but I just can't weep.

So dear I want you to cry,
And I want you to cry for me.
I don't want you to lie to me,
And say that it will be alright.

And I want you to say goodbye,
But girl I want you to mean it.
And I want you to find a man,
Who's gonna treat you right.

I'm just a virus inside your head,
You lay awake in your hospital bed
I ain't no doctor, but I know you're sick.
Sick of the bullshit and the state I'm in.

So dear I want you to cry,
And I want you to cry for me.
I don't want you to lie to me,
And say that it will be alright.

And I want you to say goodbye,
But girl I want you to mean it.
And I want you to find a man,
Who's gonna treat you right.
I'll never treat you right.
No, no, no, no, no.
No, no, no, no, no

I want you to cry,
And I want you to cry for me.
I don't want you to lie to me,
And say that it will be alright.

And I want you to say goodbye,
But girl I want you to mean it.
And I want you to find a man,
Who's gonna treat you right.

So dear I want you to cry,
And I want you to cry for me.
I don't want you to lie to me,
And say that it will be alright.

And I want you to say goodbye,
But girl I want you to mean it.
And I want you to find a man,
Who's gonna treat you right.
