

Simple Enough

Never Shout Never

And if I was a sailor
I'd sail the seven seas
To tell you 'Baby I don't want you to leave..'
You see this world is such a sad place
And without, your pretty face
Im sure it's, gonna wind up much worse..

And I know that you'll see someday, that I can't live without you..
And I know what I say is true cause I'm still stuck on you girl

Im in love from the first time I let my eyes on you
Ah shoo do do do do do do-oooh
And there's nothing I can do-o-o-o-o-o
And I'm in love from the first time I let my lips on yours
Now you're walking out my door
And there's nothing I can do-o-o-o-o-o

And if I could explore the world
I'd bring you along
We'd go to New York to Timbuktu
But truly I am sad
Right here at Denny's drinking coffee and sharing a cigarette

And I know that you'll see someday that I can't live without you,
And I know what I say is true cause I'm so stuck on you girl

I'm in love from the first time I let my eyes on you
Ah shoo do do do do do do-oooh
A there's nothing I can do-o-o-o-o-o
And I'm in love from the first time I let my lips on yours
Now you're walking out my door
And there's nothing I can do-o-o-o-o-o

I'm in love with you.
