

Sunflower

Never Shout Never

Waiting in the darkness
Facing the consequences of my actions
Then I saw you
Glowing, brighter than the mystery
Embedded in your golden eyes

Beauty, love me
Take me farther than I've been waiting for you
Sunflower to feel me
Wanted farther than before mystery
Embedded in your flawless touch
You're the only one
You're the only one
You're the only one
You're the only one

Don't question my love send from above
You're the only one
You're the only one
You're the only one
You're the only one I love
You're the only one
