

Wild Child

Never Shout Never

Ever since I laid eyes on you,
you tore my little blue heart in two.
I don't know what I gotta say,
or what I gotta do, to get through you.

I want you you want me, you know that you can have me.
I want you you want me, but baby can I have you?
I want you I need you, so baby give me a roll.
I need you, wild child!

Wild child (uh lala lala)
Wild child (uh lala lala)

You can't take my wild girl she's on fire, fire.
Watch out, watch out.

I want you you want me, you know that you can have me.
I want you you want me, but baby can I have you?
I need you I need you, so baby give me it all.
I need you, wild child!

Wild child (uh lala lala)
Wild child (uh lala lala)

I want you, you know want me too, come on baby follow through.
I need a wild girl, I need a wild girl
You need a wild man. I'll be that wild man
I need a wild child.
