

## My Life Without Me

## Neverending White Lights

In days ahead we find  
We're strangers passing by  
Was I wrong here, I wrong here?

I wasn't strong was I, strong was I?  
Hey, what went wrong there?  
We held on when they let go

Tonight we crawl to everyone  
To save the things we never had there  
They can't save a dying light

I had blamed everything on everyone  
I had prayed for everything, for everyone

And we're only only

Faces are all blind  
Strangers lost in time  
Was I wrong here, I wrong here?  
I didn't run did I, run did I?  
And we're only only

And we're only wasting (time)
