

## Our Final Hymn

## Neverending White Lights

I wanted what I can't have  
If I forget, help me to stand

The rest of our days will be there

I wanted, so I pretend  
Pull down the voices in your head

The rest of our days will be there

My body's awake and alive  
My mind is afraid to fight

I wanted what I can't have

The rest of our days will be there
