

Narcosynthesis

Nevermore

Hypnotize me, mesmerize me
Drain the color from my eyes
Patronize me, energize me
Change the world, internalize

How did it come to this, narcosynthesis
How did it come to this, narcosynthesis

Aleinat me, learn to hate me
Crucify your ideals, the flesh is the swine
We are the last ones and we are bleeding for an unseen god

How did it come to this, narcosynthesis
How did it come to this, narcosynthesis

Turn my blood to sand
Lives fall through the hourglass and grow cold
What are you searching for?
Turn my dirt to gold
Time the healer, the great concealer
Please salvage my soul

Victimize me, vilify me
Vilipend and amend the sins you condign
You are nothing and you speak for all that never was

Turn my blood to sand
Lives fall through the hourglass and grow cold
What are you searching for?
Turn my dirt to gold
Time the healer, the great concealer
Please salvage my soul
