

# Poison Godmachine

Nevermore

I know what it wants now...the void  
has swallowed the light and the machine  
wants my soul

The media machine knows what to do  
It knows how to feed the poison to you  
Useless information for your useless little lives  
The tv lies and pacifies

Do you believe everything you see?  
Children of the void come follow me  
Denounce your faith and penance the savior is unseen  
I am the new drug, your poison godmachine....poison

Poison godmachine

Poison is a word, God is a word used for fear

In subtlety we obey through ink and broadcast wave  
The doubts and fears that shadow media decay  
Deprogram this affliction and the cathode ray unclean  
I am the last nail, the empty soulless screen.....soulless

Poison godmachine

And we eat the poison, we created the poison godmachine
