

# Kings Of The World

Neverstore

I remember those never ending nights  
We used to stay up under the city lights  
And I remember that night was getting cold  
And you told me it was us against the world

And I wish I could go back  
Live that life again

And we felt like kings of the world  
In the starlight  
On a crusade into nowhere land  
Listening to punkrock bands  
Never looked back

Sometimes I think of those crazy summer days  
Doing nothing just running our own race  
And I remember what people used to say  
"They got no fututre"  
We never listened anyway

And I wish I could go back  
Live that life again

And we felt like kings of the world  
In the starlight  
On a crusade into nowhere land  
Listening to punkrock bands  
Never looked back

Oh (x11)

Now that we're older the nights are getting  
Colder and the kings haven't met for a while  
But a minority that is something to be you are  
Stuck here in my memory

And we felt like kings of the world  
In the starlight  
A wide open world right in front of us  
We made a promise that we'd never change

And we felt like kings of the world  
In the starlight  
On a crusade into nowhere land  
Listening to punkrock bands  
Never looked back (2x)
