

# Summer

Neverstore

One minute past midnight thinking about today  
And the memories we made never fading away  
We owned the night for a moment lost our minds for a week  
Loving every second on our winning streak

Nothing last forever I wish that I could stay  
The pictures that I have will never fade away  
Don't say you don't believe one chance one lifeline

I'm saving this summer  
The last one of summers  
And I'd give it all up for this one lasting forever  
I'm saving this summer  
The last one of summers  
and I'd give it all up for this one  
Tomorrow its all gone

Nothing last forever I wish that I could stay  
The pictures that I have will never fade away  
Don't say you don't believe one chance one lifeline  
Breath in slowly heart beat's faster  
Make this last. I'm wishing you were here  
We can make it last

I'm saving this summer  
The last one of summers  
And I'd give it all up for this one lasting forever  
I'm saving this summer  
The last one of summers  
and I'd give it all up for this one  
Tomorrow its all gone

Striking out once again  
everyone scream your heart,  
everyone scream your heart out  
no regrets, stand up tall  
everyone scream your heart out,  
everyone scream your heart out

And I'd give it all up for  
this one lasting forever  
im saving this summer

And I'd give it all up for  
this one lasting forever  
I'm saving this summer  
The last one of summers  
and I'd give it all up for this one  
Tomorrow its all gone

Striking out once again  
everyone scream your heart,  
everyone scream your heart out  
no regrets, stand up tall  
everyone scream your heart out,  
everyone scream your heart out
