

## Topics

## Nevertheless

She spent the night out with a guy  
Who gives attention when she cries herself to sleep  
I heard her say  
So, she gives him what he wants  
As long as he can make her feel okay  
But she's not okay

We avoid the topics  
We make the kids have secrets  
When they are exposed  
And everyone else knows  
We'll say we never knew it  
That they had a problem  
'Cause if we would have known  
We surely would have solved it  
But we can't, it's too late  
I said we can't, it's too late

He's skipping classes 'cause he hates them  
And hopes he passes not to take them all again  
I heard him say  
He escapes them with the pills  
The ones he takes to make him feel like he's okay  
But he's not okay

God, You've got to save us  
We hide behind the faces that we make to disguise  
The things that we're ashamed of  
And all the ugly things that make us close our eyes  
They make us close our eyes  
Why do we close our eyes?
