

16 Beats

New Buffalo

By my side
And I like
Where've you been
Long lost angel
Ride my bike
So much faster
Sixteen beats
And I'm back with you

There's a house
Inside different rooms
I've thought
I can see that
There's one door
Never opened
I'm inside
Asking questions

Why can't I
Play my songs for you
You know I tried last night
This is all I came up with
Yeah

I like your style
Styling me
I want to smile
So bad, please you make me feel
And I'm feeling you
But there's
One thing I've got to say

Why can't I
Play my songs for you
You know I tried last
This is all I came up with
Yeah

Why can't I
Play my songs for you
You know I tried last
This is all I came up with
Yeah

Why can't I
Why can't I
Why can't I
Why can't I
