

Kinda Girls We Like

New Edition

Ooh, ooh, ooh
Ooh, ooh, ooh
Ooh, ooh, ooh

We came out before
Now we're back again
Singin' the kinda girls we like
Now is this the end?
We're about to blast off
So hold on real tight
While Michael tells you
The kinda girl he likes

Hey, I like a girl who likes to tease
Not the kinda girl who's always there to please
The kinda girl who makes up her mind
Who's ready at her given time

The kinda girl whom you always think about
That's the kinda girl whom you can't be without
I'm Michael B, that's the girl for me
She's the only girl I could never leave

You've heard one description
Now, listen to this
Because this one for sure
You can't afford to miss
So turn up the volume
And open your ears
Because this next description
Is for you, my dear

Well, my friends call me Flash B
And here's the kinda girl that's just for me
I like a girl that is right on time
She's also sweet and she's oh, so fine

I like a nice young lady with beautiful hair
So if you want to be with Bob you gotta care
She give me her love, she give me her time
This kinda girl is mine all mine

You've heard two descriptions
Now here comes the third
And it's liver than anything
That you've ever heard
We love all you girls without any doubt
And as long as you know this
You won't feel left out

I like a nice young lady with class and style
And when I'm with her she makes it worth my while
You know that, you see, has to be
Just the right girl for Ricky

I like a nice young lady who likes to have fun
So if you fit this description

I said, "Hey girl, don't hesitate
If you want me, I'll be your playmate"

I'm Ronnie D and I'd love to meet
A girl that would knock me off my feet
A girl that's fine and divine
A girl that wants to be all mine

A girl that can grant my every wish
Is the girl I want to love and cherish
I promise you that if you are true
Tell me girl if it could be you

You've heard the last
We're running out of time
But wait just a minute there's one last line
Now listen to this and keep that in mind
And we're sure that this next rap
Will blow your mind

Yes, I like a girl that will stay with me
A girl that's a pretty sight to see
A girl with style and much finesse
A girl that's smart and wants the best

I like a girl with a pretty smile
A girl that stands out in a pile
But most of all on top of all above
Ralph needs a girl that he can love

We came out before
Now, we're back again
Singin' the kinda girls we like
Now is this the end?
Now I'm sure you'll agree
Our deep words are divine
But if you fit the description
You'll do just fine fine fine fine fine fine
