

# One Love Interlude

New Edition

You now done seen  
A lot of things coming up  
The game done changed  
So much man

The people ain't the same  
The music ain't the same  
But New Edition, we here though  
And we ain't gon' never change

As a young man  
Coming up in the game  
I seen a lot of things  
Accomplished a lot of dreams

But on my road to stardom  
I seen some things I didn't understand  
Like how another man  
Could down another man

If he's your brother, man  
Why don't you give him a hand  
And show him how to do it, whoa, oh, oh

We ain't always gotta fight  
Like they say we do  
But we can come together  
And make a power move, ooh

Be one with the music  
And let the harmony speak for itself  
We don't need no help  
We got our own nation to give, we gotta grow

All we need is one love, one love  
For my sisters and brothers, fathers  
Need to help the single mothers, mothers  
All we need is one love

All we need is one love, one love  
For my sisters and brothers, fathers  
Need to help the single mothers, mothers  
All we need is one love

Yeah, there is it  
NE one world, one love
